**DPW Free Fill
Application**

Application # _____
Issued: _____
Expires: _____

Cohoes Department of Public Works Free Fill Program for Cohoes Property Owners (10 Yard Minimum)

The Cohoes Department of Public Works regularly must dispose of fill -- consisting of a mix of topsoil, clay, sand, gravel, rubble, blacktop, concrete, cement, mulch, and lawn debris --generated from the Department's site work and day-to-day projects.

It is economically desirable for the DPW to make this fill available, without charge, to Cohoes residents, businesses, and other property owners who are seeking fill to alter the elevation of their lot, change the contours of their lot to improve drainage, replenish soils lost to erosion, or other acceptable purposes.

To apply to get on the list to receive free fill from the City of Cohoes please follow this three step process:

- ✓ Indicate that you are interested in participating in the Cohoes DPW free fill program by completing, signing, and submitting this application to the Cohoes Building Department.
- ✓ Cohoes Code Enforcement will review your application to determine your eligibility. Depending on the location of your project, quantity of fill, and/or scope of your project, you may be instructed to complete a City of Cohoes Soil Disturbance Permit Application in addition to the free fill applicaiton.
- ✓ Approved applicants will be added to DPW's free fill program list for a period that shall not exceed one year from the time the application is approved, and will be contacted if/when fill is available to be delivered to the approved address/location.

Property Owner: _____ **Phone:** _____

Address: _____

Email: _____

Briefly describe why the fill is needed, and if part of a larger project please describe the project:

- A. As part of your project will you be clearing land, grading, or filling on your property Yes _____ or No _____
